APPOINTMENTS: RESEARCH AND TEACHING EXPERIENCE

LSU Ogden Honors College, Faculty Fellow LSU, August 2024-present

As an invited member of the Honors College at LSU, I hold a three-year appointment to teach on on- or off-load in the College, serve on various committees, and a champion the honors program within Manship and throughout the university.

Visiting researcher

Département de communication, Université de Montréal, July 2023

Invited as a formally affiliated researcher to the Département, as part of previous (and continuing) research with the Paperology—A Reading and Activity Group (PAPG), based at the Artefact Lab there.

Assistant (now Associate; promoted in August 2024) Professor in Media Law and Media History

Louisiana State University, Manship School of Mass Communication, Baton Rouge, Louisiana, Aug. 2019-present

As the holder of the Darlene and Thomas O. Ryder Professorship, in this position, I conduct research on the intersection of media law, journalism and technology, teaching courses in media law and media history at the undergraduate and graduate level, supervising graduate students and conducting service to the Manship School, LSU, and to the School's First Amendment and media-history research group. Also tasked with developing LSU Online courses. Teaching load is 2/2 on the semester system. I also coordinate both honors and pre-law programs at the Manship School.

Assistant Professor

Northwest University, Kirkland, Washington, 2015-2019

Designed and led courses in the Dept. of Communication at Northwest University. Advised an average of 30-35 students. Courses taught include *Introduction to Mass Communication*, *Communication Technology Theory*, *Introduction to Speech*, *Communication Studies Senior Seminar*, *U.S. Media Law*, *Introduction to Media Writing*, *Introduction to Public Relations*, and advising student media, including *The Talon*, the student newspaper, and *The Screech*, campus podcast. Teaching load was 5/4 on the semester system.

Chair, Communication Studies

Northwest University, 2016-2019

Planned and facilitated the communication studies program at Northwest University, including course scheduling, adjunct hiring, student-worker management, curriculum redesign, internship coordination,

liaison to division dean, and promotion of the major across campus. Supervised three faculty, nearly 80 majors and a student worker.

Instructor of Record and Teaching Assistant

University of Washington, Communication Department, 2010-2015

Aided faculty research, including Phil Howard, now the director of the Oxford Internet Institute. Courses taught included multiple sections of *Introduction to Communication I* (mass communication), *Introduction to Communication II* (human communication), *Mass Media Law* and *Introductory Multimedia Journalism*. Guest lectures included: *Radio Storytelling and Technology*, *Race, Gender, and Sexuality in the Media*, *Community Journalism*, *Interviewing Principles and Practices*, *The Press and Politics in the United States*, *Navigating Information Networks for Mass Media*, *Introduction to Public Speaking* and *Rhetorical Criticism*.

RESEARCH

Areas of Study

Journalism studies (media history and media law), public affairs/relations, Science and Technology Studies (STS), history of technology, sociology of work, culture, religion and communication

As a media historian, my work touches on a variety of related disciplines, including journalism studies and media law. My primary research stream focuses on innovation and technological change in an information economy. Among other places and spaces, I examine the centers of news production and distribution, including the formative role of the American newsroom on journalism's professionalization project during the twentieth century. As part of this, I explore the early computerization of the newsroom and the adoption of the internet, the use of reporting technology, and the development of professional identity and occupational values within journalism as an occupational field. I also focus on the current daily labor of news workers and how they form those identities and values in the context of larger social and economic forces.

My research agenda thus sits at the intersection of technology and materiality studies, where it engages with two guiding questions: 1) **how do information and news workers experience and respond to changes in their workplaces and technology tools over time?** and then, more broadly, 2) **how do transitions from analog to digital technologies occur in information economies, as experienced by information workers, especially journalists?**
